The

Geophysical Journal

of the

Royal Astronomical Society

incorporating

the Geophysical Supplement to the Monthly Notices of the R. A. S.

Volume 3, 1960

Published and Sold by the

Royal Astronomical Society

Burlington House, London, W.1, England

1960

INDEX

PAGE

Australia, Note on progress in geophysics in, J. C. Jaeger and R. F. Thyer 450
Bolt, B. A., The revision of earthquake epicentres, focal depths and origin times, using a high-speed computer 434
Bomford, Brig. G., The figure of the Earth—its departure from an exact spheroid 83
Book Reviews:
Fonctions Sphériques de Legendre et Fonctions Sphéroidales Vol. I 137
The Earth, Its Origin, History and Physical Constitution 282
Physics of the Earth's Interior 283
Physics and Chemistry of the Earth, Vol. III 284
Les Transformations de Mellin et de Hankel (Applications á la Physqiue Mathématique) 285
Geochemical Method of Prospecting and Exploration for Petroleum and Natural Gas 285
Petroleum and Natural Gas 285
Palaeomagnetism and Stratigraphic Correlation 377
Introduction to Geophysical Prospecting 378
Handbook of Geophysics 476
Bott, M. H. P., The use of rapid digital computing methods for direct gravity interpretation of sedimentary basins 63
Bull, C., and E. Irving The palaeomagnetism of some hypabyssal intrusive rocks from South Victoria Land, Antarctica 211
Bullard, E. C., The automatic reduction of geophysical data 237
Bullen, K. E., A new method of deriving seismic velocity distributions from travel-time data 258
——, Note on cusps in seismic travel-times 354

Continental Structure: On the growth of continents by plastic flow under gravity, F. F. Evison 155
——, Isostatic anomalies and crustal structure in the Southern Cape, A. L. Hales and D. I. Gough 225
——, Thickness of the Earth's crust in Antarctica and the surrounding oceans, F. F. Evison, C. E. Ingham, R. H. Orr and J. H. Le Fort 289

Decae, A., On some movements of the ground in Geneva 112
Donato, R. J., Seismic model experiments on the shape and amplitude of the refracted wave 270
——, Experimental investigation on the properties of Stoneley waves 441

Earth, physics of the interior of: An equation of state for the core of the Earth, L. Knopoff and G. J. F. MacDonald 68
Everett, C. W. F., Rock magnetism and the origin of the Midland Basalts 203
Evison, F. F., On the growth of continents by plastic flow under gravity 155
——, *C. E. Ingham, R. H. Orr and J. H. Le Fort*, Thickness of the Earth's crust in Antarctica and the surrounding oceans 289

France, Current research in geophysics in, G. Jobert 272

Geomagnetism: The automatic reduction of geophysical data, E. C. Bullard 237
——, A theory of polar geomagnetic storms, J. H. Piddington 314
——, Worldwide characteristics of geomagnetic micropulsations, J. A. Jacobs and K. Sinno 333

Gravity: The compaction of sediments and its bearing on some geophysical problems, D. S. Parasnis 1
——, The use of rapid digital computing methods for direct gravity interpretation of sedimentary basins, M. H. P. Bott 63
——, Pendulum observations at Teddington, Singapore, Darwin and Melbourne in 1959, J. E. Jackson 78
——, Relative gravity determinations in the Prairie provinces with Dominion Observatory bronze pendulum apparatus, P. J. Winter and H. D. Valliant 141
Gutenberg, B., PKIKP and pseudo-PKIKP phases at distances of less than 140° 250

PAGE

Hales, A. L. and D. I. Gough, Isostatic anomalies and crustal structure in the Southern Cape 225
Hatherton, T., Microseisms at Scott Base 381

Irving, E., Palaeomagnetic pole positions, Part I. Pole numbers 1/1 to 1/144 96
——, Palaeomagnetic directions and pole positions, Part II. Pole numbers 2/1 to 2/41 and 1/71 (*m* 1) 444

Jackson, J. E., Pendulum observations at Teddington, Singapore, Darwin and Melbourne in 1959 78
Jacobs, J. A. and K. Sinno, Worldwide characteristics of geomagnetic micropulsations .. 333
Jaeger, J. C. and R. F. Thyer, Geophysics in Australia 450
Jobert, G., Current research in geophysics in France 272

Khan, Mohammed Aftab, The remanent magnetization of the basic Tertiary igneous rocks of Skye, Inverness-shire 45
Knopoff, L. and G. J. F. MacDonald, An equation of state for the core of the Earth .. 68

Letter to the Editors: *K. M. Creer, E. Irving and S. K. Runcorn*, The palaeomagnetic poles for the Lower Jurassic of Europe 367

Microseisms: Microseisms at Scott Base, T. Hatherton 381
Musgrave, M. J. P., Reflexion and refraction of plane elastic waves at a plane boundary between aeolotropic media 406

Notes on Progress in Geophysics: The figure of the Earth—its departure from an exact spheroid, Brig. G. Bomford 83
——, Palaeomagnetic pole positions, Part. I. Pole numbers 1/1 to 1/144, E. Irving .. 96
——, On some movements of the ground in Geneva, A. Decae 112
——, Current research in geophysics in France, G. Jobert 272
——, Palaeomagnetic directions and pole positions, Part II, E. Irving 444
——, Geophysics in Australia, J. C. Jaeger and R. F. Thyer 450

O'Brien, P. N. S., Seismic energy from explosions 29
Oceanography: The compaction of sediments and its bearing on some geophysical problems, D. S. Parasnis 1
——, The condition that a long-period tide shall follow the equilibrium-law, J. Proudman 244

Palaeomagnetism: The remanent magnetization of the basic Tertiary igneous rocks of Skye, Inverness-shire, Mohammed Aftab Khan 45
——, Rock magnetism and the origin of the Midland Basalts, C. W. F. Everitt 203
——, The palaeomagnetism of some hypabyssal intrusive rocks from South Victoria Land, Antarctica, C. Bull and E. Irving 211
Parasnis, D. S., The compaction of sediments and its bearing on some geophysical problems 1
